Location: Hyderabad, India

SUMMARY

As a recent graduate with a keen interest in IT support, I bring foundational knowledge in computer systems and a proactive approach to problem-solving. Eager to leverage my communication skills and technical aptitude to provide efficient resolution of customer issues. Ready to contribute effectively in a collaborative team environment while learning and growing in the field of technical support

EDUCATION

Bachelor of Technology in Electrical and Electronics Engineering Siddhartha Institute of Engineering and Technology	June 2019 – July 2022 CGPA: 6.93
Diploma in Electrical and Electronics Engineering Government Polytechnic	August 2016 – May 2019 Percentage: 74.85

TECHNICAL SKILLS

- **Database Management:** MySQL
- **Version Control:** Git/GitHub
- **Operating systems:** Windows

INTERNSHIPS

Mphasis Limited Trainee Associate Software Engineer	October 2023 – January 2024
--	-----------------------------

- Leveraged Core Java proficiency to drive advancements in software development projects, contributing to improved efficiency and robustness.
- Utilized Core Java to contribute to software development projects, enhancing efficiency and reliability.
- Implemented optimized algorithms, reducing processing time for critical tasks by 15%.
- Collaborated effectively with teams
- making it easier to read and maintain, which reduced bug resolution time.

PROJECTS

Designing and Building an Electric Vehicle	September 2021 – April 2022
--	-----------------------------

- Spearheaded the conceptualization and construction of a groundbreaking electric vehicle prototype, orchestrating a team of engineers to execute each phase with precision and expertise.
- Pioneered the integration of innovative energy-efficient technologies, including regenerative braking systems and advanced aerodynamics, elevating the vehicle's energy performance to unprecedented levels.
- Orchestrated the meticulous design process, emphasizing vehicle dynamics, battery management, motor control, and sustainable materials selection to ensure optimal functionality and environmental responsibility.
- Demonstrated leadership and vision in driving the project from ideation to realization, delivering a fully functional electric vehicle prototype that exemplifies the forefront of automotive innovation.

Soft Skills

- **Communication Skills:** Excellent verbal communication skills for interacting with customers in a technical support role
- **Customer Focus:** Strong customer service orientation with a focus on understanding and meeting customer needs.
- **Problem-Solving:** Ability to research, diagnose, and identify solutions to resolve system issues effectively.
- **Team Collaboration:** Experience working collaboratively with cross-functional teams to resolve customer issues.
